

## HWCI NCAA POOL: TEAM RECORDS (1995-2002)

Below is the list, in alphabetical order (by year), of all 192 teams who have been in the NCAA Tournament (not including the loser of the 64vs65 Play-in game) since 1995, the first year of the HWCI NCAA pool.

The first section tells you the number of years each team has been in the pool along with the first and last time they appeared (since 1995). The next section tells you the highest and lowest seed (and the average seeding) each team has attained.

The "Actual Placement" section tells you how many times each team has won six, five, etc. games in each tournament. The last section tells you each team's cumulative won/loss records since 1995. A light blue shading tells you that the team has participated in at least four tournaments since 1995.

Some interesting tidbits. Despite averaging a #3 seed (should reach Round 3), Cincinnati has been eliminated in the second round six times (in eight tries). Gonzaga, despite averaging an #11 seed (should be eliminated in 1st Round), has made the Sweet 16 (3rd Round) three times (in five tries). Indiana, who has never been seeded lower than 9th (average #6 or 7 seed), has been eliminated in the First Round five times. Kentucky, an average #2 or 3 seed, has amassed an incredible 28-6 record in its eight tournaments, nine more wins than the next closest team.
